

NEW WEB 2.0/COLLABORATIVE FUNCTIONALITY

Customers licensing the PeopleTools 8.50 release will also be granted a limited use license to the PeopleSoft Enterprise Portal 9.1 in order to take advantage of PeopleSoft's Web 2.0/Collaborative functionality.

Comprehensive Enterprise 2.0 features

With a PeopleTools 8.50 license, you are entitled to install and run a "limited use PeopleSoft Enterprise Portal 9.1 system" with the following functionality:

Workspace

- Collaborative Workspaces
- Related content services

Collaboration

increasing efficiency and communication

Collaborative Workspaces

With a PeopleTools 8.50 license, you are able to install and configure a PeopleSoft Enterprise Portal database to host collaborative services to be integrated with your PeopleSoft applications. Within the PeopleSoft Enterprise Portal you may use Collaborative Workspaces and any functionality that is delivered out of the box within a Collaborative Workspace. Specifically, this entitles you to use:

Supports

Collaboration in context of PeopleSoft transactions

- Thirteen workspace modules and associated pagelets: Wiki Content, Welcome, Discussions, Documents, Blogs, Links, Action Item Lists, Calendar, Members, Related Data, Polls, Browse Workspaces, Administration
- Workspace branding
- Workspace content as feeds
- Workspace search
- Workspace tagging
- Integration with external email and calendar systems through delivered pagelets
- Related links from and to PeopleSoft application pages and components
- Related discussions from PeopleSoft application pages and components
- Resource Finder within a workspace
- Task and worklist integration through delivered pagelets

Related Content Services

The PeopleTools Related Content Framework is delivered with PeopleTools 8.50. In addition, with a PeopleTools 8.50 license, you are able to use the following three PeopleSoft Enterprise Portal related content services:

- Related Discussion service
- Related Links service
- Related Tags service

You must install and configure a PeopleSoft Enterprise Portal database to host the data for these services. However, a separate PeopleSoft Enterprise Portal license is not required to use these related content services as described above.

Additional Base Portal Technology

In addition to the collaborative functionality mentioned above, as a licensee of PeopleTools, you are authorized to use the following functions which are incorporated PeopleTools capabilities:

- Create pagelets and customize the homepage
- Use the PeopleSoft Pagelet Wizard to create pagelets and publish them as WSRP portlets
- Publish PeopleSoft component, iScript and generic URL data as WSRP portlets. Consume WSRP or JSR168 content from non-PeopleSoft applications or web sites if licensed by the third-party to do so

If You Want More...

If you wish to use any of these features outside of Collaborative Workspaces or a PeopleSoft application Related Content frame, or if you wish to use any other PeopleSoft Enterprise Portal features that are not part of Collaborative Workspaces, you must purchase a license for PeopleSoft Enterprise Portal. See the latest PeopleSoft Portal Solutions Release Notes for more details on new Enterprise Portal functionality. See the latest PeopleSoft Enterprise Portal PeopleBooks for a comprehensive reference to all PeopleSoft Enterprise Portal functionality available.
