

## Get your ALM Software off the shelf and on the job.

Has your company licensed Oracle PeopleSoft ALM software but not yet installed it? It's probably time to ask why.

PeopleSoft ALM's robust integration of purchasing, inventory, asset management, project costing and general ledger capabilities is a cornerstone benefit that's invaluable to your project. But it doesn't stop there: PeopleSoft ALM can improve asset visibility, management and operations. PeopleSoft ALM's powerful reporting engine provides comprehensive data that guarantees accuracy and immediacy.

PeopleSoft ALM isn't just an ordinary, off-the-shelf solution, so why leave it there? Let MIPRO show you the functionality and value of this software and demonstrate how it can fit within your organization - easily, seamlessly, effectively.

### Thought Leaders. Exclusive Experience.

When it comes to PeopleSoft ALM, our experience is unrivaled. Literally.

MIPRO Consulting is the only consultancy in the United States that has been involved in the majority of PeopleSoft ALM deployments in North America, achieving a position within the industry as a respected thought leader. It's a role we accept with great pride and responsibility. We are recognized by Oracle as the industry's subject matter leader.

### What We'll Do:

MIPRO Consulting, through our twelve-week ALM JumpStart, will confirm functionality and demonstrate the feasibility of the software's ability to support representative business processes for a subset of data and business practices. The twelve-week Pilot will:

- Conduct an ALM JumpStart Pilot BluePrint strategy and Planning Workshop
- Define ALM JumpStart Pilot success criteria
- Prepare and conduct a, multi-week Fit/Gap analysis
- Configure either your test environment or develop a blank environment for you
- Execute a multi-week run of the ALM Pilot program
- Document configuration decisions

### Client Prerequisites

The ALM JumpStart assumes the following Modules are licensed:

- Maintenance Management
- Asset Management
- Project Costing
- Inventory (optional)
- Accounts Payable and Purchasing (optional)

### JumpStart Your ALM Investment

Our ALM JumpStart Pilot is a packaged service approach to getting your ALM software off the shelf and on the job. ALM JumpStart covers the following discussion areas:

- Confirming functionality
- Knowledge transfer
- Confirming business configuration decisions
- Demonstrating the use of the software Once the pilot is completed the customer can:
  - Determine how to proceed forward
  - Leverage some of the content to proceed with the implementation
    - Leverage MIPRO to lead
    - Leverage MIPRO for staff augmentation
  - Leverage some of the content to proceed with the customer driven project

## After the ALM JumpStart

At the conclusion of the ALM JumpStart, you'll have a strong proof-of-concept that can help to validate your direction and plan to support your organization's asset lifecycle management objectives using PeopleSoft's ALM product.

A tool becomes a solution when the technology is integrated with smart, effective business processes. MIPRO can help you and your team deliver a high level of user acceptance and a frustration-free customer experience.

### ALM JumpStart At a Glance

- Twelve-week on-site
- Leverage client's test environment with client from: GL, AP, PO, IN, AM, PC
- Conducted by MIPRO's nationally recognized consultants
- Preemptively answer implementation questions
- Demonstrate use and value of the software

## Do the Right Thing
