

## Unfortunately, your institution's maintenance operations won't streamline themselves.

Whether it is your fleet, buildings, classrooms, or common areas, these assets represent the largest single investment in the campus. Complexity equals cost. Preventive maintenance, work orders, skilled tradesman, and cost capitalization are just a few ingredients in a successful solution. Pulling these elements from multiple systems is not an easy challenge – until now. Most maintenance systems are disconnected from the systems they draw data from, which results in duplicated data. We all recognize the difficulty of managing from multiple silos of data. Isn't it time for all this to change with PeopleSoft ALM?

### Thought Leaders. Exclusive Experience.

When it comes to PeopleSoft Asset Lifecycle Management, our experience is unrivaled. Literally.

MIPRO the only consultancy in the United States that has been involved in the majority of PeopleSoft ALM deployments in North America, and we have assumed a position as one of the industry's thought leaders on the technology. It's a leadership position we take with pride and great responsibility.

We are even universally recognized by Oracle itself as the industry's subject matter leader.

### An Idea Whose Time Has Come

PeopleSoft ALM is a robust solution that enables institutions to prioritize assets and manage the

facilities on their campus, at the proper levels to meet utilization, uptime and business goals. It's the logical centerpiece to an integrated Facilities solution and is the perfect complement to your PeopleSoft HCM, Financial, and Student Administration solution.

Like any other software solution that streamlines asset complexity, PeopleSoft ALM requires an intelligent deployment.

#### What we'll do:

- **Plan** your implementation strategy.
- **Bridge** the communications gap between the various teams/organizations involved in an intelligent ALM deployment.
- **Manage** your implementation from both functional and technical standpoints.
- **Minimize** technical risks by discussing all potential issues, decisions and dependencies.

## PeopleSoft ALM and Higher Education

Oracle provides enterprise-strength solutions that help educational institutions meet and adapt to the ever-changing needs and demands of all constituents. Oracle solutions improve performance management, reporting, compliance, efficiency, and recruiting results in all areas and levels of education worldwide. Oracle is the leader in providing applications to academic and research institutions, and MIPRO is the leader in its implementation.

- 10 of the top-10 research universities run Oracle applications
- 15 of the top-50 academic institutions in Europe run Oracle applications
- 8 of the 12 universities in the BigTen Conference run Oracle applications

### PEOPLESOFT ALM AT A GLANCE

- Benefit from the experience of the only consultancy in the United States that has been involved with the majority PeopleSoft ALM deployments
- Reduce complexity
- Dramatically streamline your maintenance operations
- Manage assets across their full service lifecycle
- Understand how software change must lead to business process change
- Lower total cost of ownership

## Do the Right Thing

Whatever your challenge, you can count on MIPRO to help you do the right thing. Our passion for our clients' success, employing and inspiring the best people in the business, and the PeopleSoft product conditions our every pursuit. And our laser focus on the PeopleSoft suite ensures that our clients get the exacting precision of a specialist, when a generalist simply won't do.
