

Singular focus. Limitless passion.

The professionals at MIPRO are guided by a strong and enduring passion for three things: the success of our clients, employing and inspiring the best people in the business, and the PeopleSoft product. It is a passion that conditions our every pursuit, fueling one persistent and consistent motivation: to do the right thing.

This drives us to go beyond the extra mile to provide not just any solution; but the *right* solution. We are not afraid to have difficult conversations when necessary, because we settle for nothing less than the right result. We care enough to confront the challenges before us head on, as we expect and demand great outcomes for our clients.

Because we have a single direction and a consistent professional focus, we operate with the precision and skill of a specialist where others aspire to be more generalist. While some try to be all things to all people, we are content to be all things to all PeopleSoft.

PeopleSoft. It's in our very DNA.

With a lineage that traces back to the very early days of PeopleSoft itself, it's only natural that this technology would be at the core of who we are as a company. In many ways, MIPRO was borne from PeopleSoft. We love it; we live it; we breathe it everyday. Our history with the product and our familiarity with its origins translate to a deep understanding of PeopleSoft at its core. It is in our very DNA. Who is better suited to continue to expand and explore the power and potential of the product than those who helped mature the innovation of it?

Our PeopleSoft heritage enables us to know how best to implement, leverage and maintain the

product's strengths, and our deep industry relationships allow us to not just support ongoing product development, but to voice strategic input on the direction of the product's future.

MIPRO drives new innovation in bridging PeopleSoft products into areas that others do not. In certain areas, such as Asset Lifecycle Management, we are proud to claim the mantle of thought leaders, spurring innovation and connecting new dots. We maintain a unique relationship with Oracle's product development team, serving as true partners to Oracle's innovation and product development efforts.

PeopleSoft Specializations:

- Human Capital Management
- Financial Management
- Asset Lifecycle Management
